

TECHNICAL SPECIFICATIONS

Capacity, Liter/day	6 000
Liter/min	4 – 6
Inlet water pressure, bar	2 – 5
Power supply	230 V, 50 Hz
Power consumption, kW	0,8
Ambient temperature, °C	5 – 40
Size (HxWxD), mm	1 760 x 760 x 720

COMPONENTS

Basic model

- Fully automated water treatment system
- Controller with built-in GSM/GPRS module
- High pressure Grundfos pump
- Antiscalant dosing system
- Internal storage tank (80 L)

Options

- Bill acceptor and coin acceptor
- Mineral dosing system
- LED display
- Pressurized drainage pump
- Cabinet temperature maintenance
- Private labeling

Ecosoft is a professional company specializing in water treatment. We manufacture and market engineered water purification solutions for residential, commercial and industrial applications since 1991.

Extensive chemical engineering and water purification expertise help Ecosoft to create novel and effective products.

We manage our own chain of 350 water vending machines and have a wide experience in their operation and service. We constantly improve the functionality of our systems. One of the latest achievements is a built in GSM/GPRS module for immediate data transfer.

RO DRINKING WATER VENDING MACHINES

KEY FEATURES

EFFICIENCY & PROFITABILITY

Long-term stable work of the system and low cost of purified water due to application of high flow rate industrial reverse osmosis membrane

ONLINE MANAGEMENT TOOL

GSM/GPRS module allows to check the dashboard and technical state of your machine at one click

ABSOLUTE PURIFICATION

Multi-stage water treatment technology:

- Sediment filtration
- Chlorine removal
- RO membrane filtration
- Taste and odor improvement
- Essential minerals enrichment
- UV-disinfection

INTERNATIONAL CERTIFICATION

CE marked and confirmed to be safe in accordance with EC New Approach Directives:
2006/95/EC Low Voltage Directive
2004/108/EC Electromagnetic compatibility

QUALITY MANAGEMENT

Professional engineering, components from leading world producers and massive field experience ensure best results and long service life of the machine

STAND-ALONE OPERATION

Fully automated, available 24/7 and does not require constant owner's involvement

COMPACTNESS

Minimum rent due to small footprint

VANDAL PROOF

Durable housing construction materials and shockproof panel allow you to place the machine in any environment
